

**To whom it may concern**

**Re: Reference for C2 Electrical Limited**

We have instructed C2 Electrical Limited to work on various projects for many years and have always found their work to be of a professional nature. They have invariably met completion dates and supplied us with all relevant documentation to support their work.

Projects that we have been associated with are London School of Economics (LSE), City University and Chelsea & Westminster and Great Ormond Street Hospitals.

We will have no hesitation in employing C2 Electricals' services in the future.

Yours faithfully
